Saebo closes Series A Financing; Plans nationwide rollout of the *SaeboFlex*

September 27, 2004 – Charlotte, NC - Saebo, Inc. (formerly Affordable Therapy Equipment or ATE) an innovative provider of stroke rehabilitation products announced that it has secured up to a \$1MM investment from CHMG Capital, LLC, to expand its marketing and distribution nationwide. Saebo also announced that they have changed the name of their breakthrough therapy product from the FTM (for Functional Tone Management) to the *SaeboFlex*.

Henry Hoffman, President and Co-Founder of Saebo stated, “We are very excited about closing this round of financing. It will allow us to continue our rapid growth by rolling out our therapy CEU training programs across the country. Once therapists are trained on the benefits of our product, they return to their clinic or practice and identify patients who would benefit from our *SaeboFlex*.”

Co-Founder John Farrell, Saebo’s Vice President of Research and Development added, “This round of funding will also allow us to continue investing in our product line. We have a number of new stroke rehab products in development, and we are excited about bringing these to market in the next couple years.”

The investment was made by CHMG Capital, LLC, the investment affiliate of CHMG, a leading provider of Certified home health services in the Southeastern US.

CHMG President and CEO Todd Wiebusch continued, “We are so excited about our investment in Saebo. They have a solid plan to grow their business, and the relationships that we have in our 40 home health offices should help their growth, as well.”
